About Cargo Care Pumps

Cargo Care Solutions is a service company for cargo access equipment, deepwell cargo pumps with over 35 years of experience in the marine industry.

Our Division for Deepwell Cargo Pumps is an exciting new player in the international maritime industry.

Our independent position, an alternative brand of spare parts and a global network allow us to support our customers around the world.

With our extensive experience in the field of deepwell cargo pumps and our broad international maritime network, we offer our clients safe and trouble-free operation of their cargo pumping equipment.

Our focus lies within servicing deepwell cargo pumps on sea-going chemical and/or product tankers. We specialize in the production and supply of alternative branded, high-quality spare parts and combine this with excellent on-site service and remote support.

Through our global network, we offer spares, service and support from our three main locations; Rotterdam, Houston, and Singapore. We are proud that our many years of experience, together with fast and reliable service, are enabling us to build strong and lasting relationships with our customers across the globe.

What challenge do we offer you?

In a challenging and ever-changing international marine industry, you will make sure that our customers can operate their equipment safe and trouble-free. By doing inspections on board, you will analyze the lifecycle of the equipment and follow up with recommendations. You will assist our customers during the survey intervals and maintain their equipment on site. After a pro-active and intensive training course, you will be, together with your colleagues from the service department, responsible to maintain our high standard and support us to further develop our international brand.

- **Big effort to support us building our international brand**
- **Worldwide annual inspections of deepwell cargo pump equipment**
- **Perform maintenance work during the survey interval of the vessel**

What do we ask in return?

- **Strong customer- and service minded mentality**
- **Technical background, preferably with hydraulic systems**
- **Passion for the marine industry and cargo pumps in particular**
- **Fluent in English (written and spoken)**
- **Team player willing to travel worldwide**

Both starting, as well as experienced engineers, are welcome to apply.

Working for Cargo Care Solutions

We have a strong ambition to keep on developing ourselves and staying ahead of the competition. This reflects in our company's principals:

Passion for our customers

We put the customer first in everything we do.

Quality and competence

We strive for excellence in all we do with our extensive knowledge and experience.

Reliable and flexible

We are open, honest and direct in our communication, we are realistic in what we can accomplish.

Engaged

We love to work hard and have a passion for what we do, teamwork is of utmost important to us.
